And What Have You

By BOB CRAIG

Senator John Tower recently introduced a bill in Congress that recognizes a problem that the people of Hamlin and this area are well aware of:

The doctor shortage is becoming critical!

In presenting his bill, Senator Tower issued the following statement that supports the need for his federal help in this area:

"One of the great paradoxes of our day is the ever-increasing critical shortage of health manpower in the midst of the most affluent society in history.

The simple fact is that there are not enough physicians, dentists, or optometrists to meet our country's demand for health care. It is conservatively estimated that there currently is a shortage of 48,000 physicians, 20,000 dentists, and over 10,000 optometrists nationwide.

"This shortage is especially felt in hard-pressed rural and urban-core areas, including many Texas counties. For this reason, I have introduced a bill in the Senate to provide a special tax incentive for health professions to locate in these doctor-short regions.

"A good example of shortages in rural areas is found in a recent study in the right-county region surrounding San Angelo.

"The study found that this area of Texas, which is larger in size than the states of Massachusetts and Connecticut combined, has only 83 doctors of all kinds and 76 of them located in San Angelo. There were no doctors at all in Concho or Irion county which have a combined population of nearly 4,000.

"The report further states that the isolated locations or many of the smaller towns in West Texas mean that too many people lack convenient access to the services of physicians. The number of physicians serving rural areas has declined six times faster than the population has decreased in those areas. There still are 134 counties in the nation without a doctor and 24 of those counties are in Texas.

"There are 148 counties in Texas that have been designated as physician-shortage areas. In Texas alone, there are 42 counties which do not have the services of even one dentist.

"The legislation which I have introduced in the Senate is specifically designed to attract medical personnel to these shortage areas.

"Briefly, the bill proposes that the first \$20,000 of the adjusted gross income from sources of their medical practice be tax-exempt for the first taxable year of practice in a recognized shortage area.

"The incentive would continue for five years on a downward sliding scale. This bill further requires that the health professional practice at least two years in the shortage area."

House Committee Gives Hospital Bills Approval

In a meeting Tuesday afternoon the House Intergovernmental Affairs committee passed out the three Jones County Hospital District bills with the recommendation that they be passed. The committee also passed out the Fisher County bill but with an amendment that the territory included in the Hamlin School District within Fisher County be eliminated from the bill.

The Jones County bills (Senate Bills 448, 449 and 450) will go before the full House in the next step in the legislative process. If the full House passes the bill it would then go to the Governor's Desk to be signed into law. Because of the amendment to the Fisher County bill (Senate Bill 447) it will have to either go back to the Senate after House passage or go into a conference committee.

A number of Hamlin residents, along with other residents from Jones County, were in Austin Monday evening to appear before the House Intergovernmental Affairs Committee. Hamlin Attorney Jack Willingham served as spokesman and headed the delegation appearing before the committee in support of all three bills.

Also speaking for the bills were Judge Leon Thurman of Anson and J. F. West of Stamford.

The committee heard the testimony Monday evening but because of the lack of a quorum took no action until Tuesday afternoon.

Attending the hearing Monday from Hamlin in addition to Willingham were John C. Bryant, Joe Ford, Joe Hudspeth, Hollis Madden, Johnny Steele, Bill Davis and Bob Craig.

God Bless...

God bless Mommie, Daddie, and all my friends at church...

"Hearken unto the voice of my cry, my King, and my God."

God's word has a great deal to say about prayer, for prayer is our means to communicate with God. Through prayer we can give thanks, petition for our friends, and seek God's wisdom for our daily living.

Make prayer a daily practice in your life.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Hamlin High Happenings

Piper Patter

by Velanne Rowland
Teri Casey
Piper Willis

(FROM LAST WEEK)

Oh, wow! Can you imagine the number of trophies that Hamlin High School has accumulated this year? You know, that big trophy case in the foyer of our high school? Well, it's already jam-packed! Why, I'll bet if we cleared out all of the festival and invitational trophies and just left the UIL, district, bi-district, regional, and state trophies it would still be crowded!! And we owe it all to the many fine instructors and students that have competed in any kind of extra-curricular activity in high school. If you are one of those who have contributed, you should stand proud whenever the name of a Pied Piper team, band, or organization is mentioned!!

Also, I think just a little credit should be given to the 1973 students because I figure they have added about 25 trophies to the grand total of 155 in the high school trophy case alone. And 15 of these were earned by the 1973 track team, including district, regional, and state!

Congratulations to Milton, David, Cakae (Albert), Pee Wee (Alfred), Johnny and what's that other guy's name?...Oh, yes! — Bill!! I'd also like to add that we are losing only one senior trackster and although he is a fine athlete, we should be looking toward state again next year!!

Second Street, Abilene, Texas, upon a deposit of thirty (\$30.00) dollars which will be returned upon the submission of a bonafide bid and return of said Plans prior to date set for receipt of bids. Specifications and Documents may be examined in the office of the City Secretary, City Hall, Hamlin, Texas.

John Steele, City Secretary

There's a crisis in the film industry — nobody under 18 can see the movies, and nobody over 40 can eat the popcorn.

Someone asked if our house has a full basement? Almost!

It's easy enough to tell right from wrong — the hard part is to decide which is more profitable.

VA Service Officer Warns Of False Insurance Reports

A. V. "Blue" Womack, Veterans Service Officer for Jones County, has a message of utmost importance for all veterans of World War II. This message concerns a false report that is currently circulating across the country, urging veterans to apply to the Veterans Administration for their "special" insurance dividend.

According to the erroneous report, which is being carried in many newspapers and other publications, a law supposedly has been passed authorizing the Veterans Administration to pay a "special" dividend of 55 cents per month for each \$1,000 of GI or Government life insurance which he had in force in World War II. The story is completely false, and is nothing more than a cruel hoax, since no such

legislation has been enacted by the Congress. A Special Dividend was paid in 1949 and 1950 to veterans who carried National Service Life Insurance during World War II. This was only a one-time payment, although annual dividends are still being paid to those veterans who have continued to keep their old GI insurance in force.

This false story seems to surface every two or three years, and all veterans are urged to recognize this "special" dividend rumor as a hoax. The Congress, in 1970, passed a "State Claims Act" which relieves the VA from the responsibility of processing claims which might be made as a result of this false story. Thus, any veteran who applies for the "special" dividend mentioned in these reports is in reality wasting his time his efforts, and the money spent for postage.

Any veteran who is legally entitled to an insurance dividend from the Government will receive an official individual notice of the amount of his entitlement, and no heed should be paid to the false "special" dividend rumor.

The Board of Trustees of the Hamlin Independent School District voted here Monday evening to accept several bids on the sale of district owned property and also voted to consolidate the school tax office with the City of Hamlin tax office.

The board accepted bids on two retired buses and on two city lots owned by the district. Bethel Temple Church of Abilene was high bidder on bus 16 with a bid of \$762.50 and Southside Baptist Church bid \$1,320.99 for bus 17.

Jack Harugthy was the high bidder on the two lots owned by the district located across from the elementary school building. His bid was \$350.

The board turned down the bids on a pickup for the time being.

In voting to consolidate the school tax office with the city tax office, the board voted to try this arrangement for one year, beginning Sept. 1. Supt. Bob Hawes pointed out that anyone that has business with the school tax office between now and Sept. 1 will continue to conduct this business at the school tax office behind the junior high school building. Haskell Carter will remain school tax assessor-collector until his retirement in August. Hawes pointed out.
